

## DESCRIPTION

For each AntrumX air quality monitoring panel complete the below panel configuration which maps each monitored zone to a specific channel on the monitoring panel.

### Customer Site Information – Example

<b>Project Name:</b>		Grand Rapids PDH Renovation	
<b>Panel Name:</b>		AQMS1	
<b>Supply Duct Static Pressure (Design):</b>	<b>2.0</b>	in	
<b>Exhaust Duct Static Pressure (Design):</b>	<b>1.0</b>	in	
<b>Signaling Panel Name:</b> (if applicable)		*Only complete if the monitoring panel is linked to a signaling panel	
<b>AX Panel Termination</b>	<b>Space</b> (Object Name Prefix)	<b>Description</b>	<b>Faceplate/Duct Probe Location</b>
Channel 1	205 N.	Intro Physics GE	Intro Physics GEX N.
Channel 2	205 S.	Intro Physics GE	Intro Physics GEX S.
Channel ...			
Channel 8	101 SA Reference	Air Handling Unit 101	AHU-101 SA Penthouse
AA1	N/A	Exhaust Vacuum	AHU-101
AA2	N/A	Sample Vacuum	LEF-1

### 8-Zone Panel Configuration

<b>Project Name:</b>			
<b>Panel Name:</b>			
<b>Panel Location</b>			
<b>Supply Duct Static Pressure (Design):</b>		in	
<b>Exhaust Duct Static Pressure (Design):</b>		in	
<b>Signaling Panel Name:</b> (if applicable)		*Only complete if the monitoring panel is linked to a signaling panel	
<b>AX Panel Termination</b>	<b>Space</b> (Object Name Prefix)	<b>Description</b>	<b>Installation Location</b>
Channel 1			
Channel 2			
Channel 3			
Channel 4			
Channel 5			
Channel 6			
Channel 7			
Channel 8			
AA1	N/A	Exhaust Vacuum	
AA2	N/A	Sample Vacuum
